Professional Summary

Computer Science and Engineering graduate currently pursuing an M.Tech in Artificial Intelligence and Data Science, with hands-on experience in Python, Java, SQL, Machine Learning, Data Science, and Full-Stack Development. Experienced in building scalable web applications and RESTful APIs using Flask, Spring Boot, React, MySQL, and PostgreSQL, with practical knowledge of AWS, Docker, Git, and Postman. Skilled in data preprocessing, exploratory data analysis, feature engineering, statistical analysis, NLP, model development, and evaluation. Strong problem-solving and software engineering skills with experience developing AI/ML and data-driven applications.

Education

Master of Technology in Artificial Intelligence and Data Science — 2026 – 2028
Koneru Lakshmaiah University, Vijayawada — CGPA: 8.9/10

Bachelor of Technology in Computer Science and Engineering — 2020 – 2024
Koneru Lakshmaiah University, Vijayawada — CGPA: 8.51/10

Technical Skills

Programming Languages: Python, Java, JavaScript, SQL

AI & Machine Learning: Machine Learning, Deep Learning, Natural Language Processing (NLP), Generative AI

Data Science & Analytics: Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), Feature Engineering, Statistical Analysis, Model Evaluation

Frameworks & Libraries: Scikit-learn, TensorFlow, PyTorch, Hugging Face Transformers, NumPy, Pandas, Matplotlib, Seaborn

Web Development: HTML5, CSS3, JavaScript, React.js, Bootstrap, Flask, Spring Boot, REST APIs

Databases: MySQL, MongoDB

Cloud & Deployment: AWS, Docker

Tools: Git, GitHub, Postman, Visual Studio Code, Jupyter Notebook, Google Colab

Internship Experience

Python Full Stack Intern – Codegnan IT Solutions

- Developed full-stack web applications using Python, Flask, MySQL, HTML, CSS, and JavaScript. .
- Designed and integrated REST APIs for backend communication and application functionality.
- Implemented database operations, backend logic, testing, debugging, and feature development.
- Worked with Git and GitHub for version control and followed collaborative Agile development practices.

AWS AI-ML Intern – AWS Academy

- Developed and deployed machine learning solutions using S3, EC2, and Lambda.
- Worked with cloud-based data-processing workflows and AI/ML application components.
- Built automated data-processing workflows for practical machine learning use cases.
- Applied machine learning concepts together with AWS cloud services for deployment-oriented solutions.

Projects

Image Captioning – Deep Learning & NLP Application — imagecaption
Python | TensorFlow | Hugging Face | Streamlit | NLP | Deep Learning

- Developed an AI-powered image captioning application using deep learning and transformer-based NLP models.
- Integrated Hugging Face models to generate natural-language captions from uploaded images.
- Implemented image preprocessing and model inference workflows for image-to-text generation.
- Built an interactive Streamlit application for real-time image caption generation.

Quick Notes – Python Full-Stack Web Application — quicknotes
Python | Flask | MySQL | HTML5 | CSS3 | JavaScript | REST APIs | AWS EC2

- Developed a secure full-stack note management application with user authentication and CRUD functionality.
- Designed and integrated RESTful APIs with MySQL for structured data storage and retrieval.
- Implemented responsive web interfaces using HTML, CSS, and JavaScript.
- Deployed the application on AWS EC2 and used Git/GitHub for source-code management.

Certifications

- AWS Certified Cloud Practitioner
- Red Hat Certified Enterprise Application Developer
- Oracle Cloud Infrastructure Foundations Associate
